GOVERNMENT DEGREE COLLEGE, BARUVA

FORE WORD

Education is not to be confined within the walls of classroom. Education is to provide means to enable a person to transcend the limitations of human perception and to understand the organic growth of the world to place oneself fit to perform one's role efficiently in the interest of larger order of existence. Education is a process to cause transformation to the finest of our thought, feelings and deed. It is to free ourselves from being ignorant, harmful and parasitic. It is to create cultured, developed and compassionate human minds with efficient working skills.

Our education system needs to focus on quality, value of employability skills and work towards the objective of achieving a just and peaceful society while performing our assigned duties honestly and we conduct ourselves in such a way that we find everywhere all abundance and serving the needy becomes the central point of our life.
